# Executive Summary

Kalgoorlie-Boulder Urban Landcare Group (KBULG) is a community-based Environment and Conservation Organisation. The group has been working to improve the environment in and around Kalgoorlie-Boulder for over 40 years. KBULG is a registered Charitable Organisation.

## VISION

KBULG's vision is to work for a "better environment and better lifestyle" for the people of Kalgoorlie-Boulder through "collaboration, education and participation".

1. To remain the leading environmental group in the goldfields.
2. To facilitate Kalgoorlie-Boulder becoming a more environmentally aware community.
3. To inspire the Kalgoorlie-Boulder community to be environmentally active.
4. To ensure the sustainability of KBULG.

## CEO Report

I am pleased to present the Annual Report for Kalgoorlie-Boulder Urban Landcare Group (KBULG) for the financial year ending 30 June 2015.

KBULG has once again had a successful year, achieving all goals, completing all projects, programs and activities we set out to do, and more! This year has seen many upgrades to our nursery, which will enable us to further grow and expand our education programs. All our annual community awareness/educational events are supported and attended by many people in the community, and we have continued to increase our presence in the city by supporting other organisations and their events.

This coming financial year will see KBULG complete the upgrades to our reticulation system, which will allow automated watering, rather than the labor intensive hand watering. We will be again hosting our annual events, projects and activities, whilst seeking to grow our involvement in the community and extend our education programs, including cultural heritage and awareness and our Great Western Woodlands or as our new Mayor calls it, the Goldfields Woodlands. KBULG will continue to enhance our community nursery, with the view of becoming more self sufficient in the future, so that we do not rely so heavily on the funding we currently receive.

Our support and volunteer network is growing exponentially. Thank you so much for your motivation and dedication, helping us to continually, year on year, achieve our goal of creating a "better environment and better lifestyle" for the people of the Goldfields.

I would also like to sincerely thank our KBULG staff (past and present), the committee, members, partners and sponsors (both financial and in-kind). I really appreciate your support and look forward to working with you this year to achieve many, many more GREAT things for our community and future generations.

*Many Thanks and Regards,  
Kim Eckert*

# Achievements 2014/2015

<b>JUNIOR LANDCARE</b>	<p>Kalgoorlie-Boulder Primary schools were involved in the Junior Landcare Programme this year through KBULG conducting Bushwalks through Karlkurla Park and Tree planting projects with the schools. KBULG also presented talks at schools and participated in school expositions.</p>
<b>NEWSLETTER</b>	<p>Continued to produce a seasonal newsletter which is published quarterly as a full page centre spread in Saturday's Kalgoorlie Miner. With approximately 15,000 copies printed, we are reaching a wide audience.</p>
<b>RECONSTRUCTED ART COMPETITION</b>	<p>The rEConstructed Art Competition &amp; Exhibition encouraged members of the community to source and utilise waste products and materials to create innovative pieces of art. Reduce—Reuse—Recycle, celebrated as part of National Recycling week.</p>
<b>CLEAN UP DAY</b>	<p>KBULG hosts the "Clean Up Kalgoorlie-Boulder Day" in conjunction with Clean up Australia Day. The community cleaned up Bushland in Hannans North behind Hannans Boulevard. It was a great exhibition of community spirit.</p>
<b>TIDY TOWNS</b>	<p>KBULG entered Kalgoorlie-Boulder into the Tidy Towns Sustainable Communities Awards 2014 and won the Regional Award for Natural Environment Conservation Goldfields &amp; Central Wheatbelt.</p>
<b>SUSTAINABLE GARDEN QUEST</b>	<p>KBULG launched its annual Sustainable Garden Quest in conjunction with the major sponsors <b>Bergie's Soils, Outback Energy and the Kalgoorlie Miner</b>. The competition focused on all aspects of creating and maintaining a sustainable garden, the overall appearance, colour and tidiness of gardens and verges.</p>
<b>COMMUNITY TREE PLANTING DAY</b>	<p>KBULG coordinated the Annual Community Tree Planting day in conjunction with the City of Kalgoorlie-Boulder and core sponsors. The site for 2014 was Boomerang Crescent in South Kalgoorlie. 3000—4000 plants were planted by as many as 200 volunteers.</p>
<b>NATIVE PLANT GROUP</b>	<p>Participants in the KBULG Native Plant Group continued to propagate local natives from seed &amp; cuttings. Plants grown by the group were distributed to local schools and community groups free of charge. The Native Plant group meets on the first Sunday of every month.</p>
<b>KARLKURLA BUSHLAND PARK</b>	<p>KBULG continues to support Kalgoorlie-Boulder City Council with the park management, along with bush walks, tree planting and school projects. Improvements to the park include pedestrian counters and a new boardwalk bridge constructed from recycled plastic.</p>
<b>GIFSA</b>	<p>KBULG continues to support the Goldfields Individual Family Support Association (GIFSA) through encouraging people living with disabilities and their carers to further develop interests &amp; training opportunities at the Karlkurla Community Nursery.</p>
<b>SCATTER THE SILKY PEAR</b>	<p>This program enables tourists to pick up a brochure and a packet of Karlkurla seeds (for a small donation) from the Kalgoorlie-Boulder Tourist Centre and scatter them in Karlkurla Park. Funds from seeds sold contribute to projects within Karlkurla Park.</p>
<b>REGENERATION ZONES</b>	<p>A series of fenced Regeneration Zones encompass an area of approximately 3,500 hectares around Kalgoorlie-Boulder. The Regeneration Zones safeguard habitat fragments for endemic species with locally restricted habitats such as rare <i>Eremophila</i> species. Continued awareness has been raised through the media and the KBULG newsletter, educating the community to preserve the natural environment.</p>
<b>PUBLIC AWARENESS AND PROMOTION</b>	<p>KBULG continues to get out and about within the community to promote the local environment and the importance of living sustainably. This is achieved by attending community events like the Spring Festival, Kids Fest, Lighting of the Xmas tree, schools and public/group forums, in addition to KBULG's own education and conservation events/projects.</p>
<b>RECYCLING</b>	<p>KBULG continues to support the City of Kalgoorlie-Boulder with public awareness promotion and education relating to waste cycle management, with a particular focus on recycling. KBULG continues to lobby for business and commercial recycling.</p>
<b>MEMBERSHIP</b>	<p>KBULG continues to promote its community services throughout the community and constantly strive to welcome new members. In 2014-2015 we had over 500 members.</p>

# Sponsors and Partnerships

KBULG could not achieve our goals without the support of our core sponsors: The City of Kalgoorlie-Boulder, Northern Star Resources Kanowna Belle, KCGM, NRM Rangelands WA, the Department of Parks & Wildlife Kalgoorlie-Boulder and LandCorp.

These organisations work in partnership with KBULG and help us to achieve our vision of working for a “Better Environment and Better Lifestyle” for the people of the Goldfields.

Our sponsors provide the ongoing funding required for all of KBULG’s projects including Junior Landcare, Tree-planting, KBULG Newsletter, Karlkurla Bushland Park, Karlkurla Community Nursery, Native Plant Group, Regeneration Zone Management, numerous other projects and activities, in addition to the general administration of the group.

Our core sponsors are integral to maintaining the profile and respect that we hold within our community.

KBULG has strong links and working relationships with all of our core sponsors, mining companies and businesses in this region, who provide in-kind support to our programs and initiatives.

All of our projects involve partnerships that provide mutually beneficial outcomes.

KBULG regularly acknowledges the vital role of sponsors to its operations.

# Management of KBULG

The KBULG committee is made up of a large and diverse group of individuals, and includes representatives from government, local industries and interested members of the community.

The Kalgoorlie-Boulder Urban Landcare Group co-ordinates and promotes many projects and are involved with many activities around the City of Kalgoorlie-Boulder. This is all coordinated from the KBULG office, which is now located at Karlkurla Bushland Park.

KBULG employs a Fulltime paid CEO. Kim Eckert has been employed within this position since January 2013. Kim is responsible for the day-to day management and coordination of the organisation, under direction from the KBULG committee.

Part-time and Casual staff along with Volunteers assist with the various projects, including; the Junior Landcare Program, Clean up Australia Day, guided bushwalks, Community Tree Planting Days, manning the KBULG stall at displays and expositions, along with administration and nursery operation tasks.

The KBULG CEO is responsible for establishing successful avenues of community liaison, reaching a high diversity of groups and organisations, consequently involving community members from all socio-economic backgrounds. The CEO ensures projects are planned, implemented, maintained and monitored. Major tasks include project development and funding, public education and co-ordination of community events. The staff also liaise with the

Council, schools, government departments, sponsors and the media on local landcare projects and issues.

The elected Committee guides and supports the KBULG CEO with any issues that arise, along with project management decisions as required. The committee also provides strategic planning and direction for the group.

John Mathew	(GIFSA) Support Worker

# Environmental & Community Achievements

- In November 2009 KBULG held its very first recycled Art Competition and exhibition called "rECONstructed". In 2014 the competition and exhibition was viewed by thousands of people at the Goldfields Arts Centre. The competition was highly successful with over 30 entries received from professional artists, schools and community members.
- Approximately 200 people planted around 3000—4000 trees, shrubs and ground cover plants on the corner of Altham Street and Sewell Drive in South Kalgoorlie at KBULG's annual Community Tree Planting Day in 2014.
- Over 60,000 plants were grown in KBULG's nursery, providing us with necessary plant numbers for tree planting events around town, and allowing thousands of plants to be donated to local community groups, schools and the community.
- 2014 saw many gardening enthusiasts enter their garden into our annual Sustainable Garden Quest Garden Competition. The gardens looked fabulous and judges were very impressed.
- Over 800 students participated in KBULG's Junior Landcare Program in 2014/2015. Frequently organised activities included educational bushwalks with the duration and educational content adapted to the class needs, tree planting events on school grounds and classroom talks.
- Updating promotional and community educational material over this time has been a key focus. KBULG is currently in the process of updating a number of educational brochures and all new interpretive signage has been installed in Karlkurla Bushland Park.

## Environmental & Community Achievements (continued)

- KBULG continues to disseminate the Local Native Plants pamphlet. The free pamphlet compliments the newly updated Native Plant Guide as it provides a detailed look at local Goldfields Waterwise Plants ranging from Mallees & Trees through to ground covers and Dwarf Shrubs. Both the pamphlet and the Native Plant Guide are great resources for anyone wanting to grow a Native garden.
- KBULG continues to promote the Great Western Woodlands through conducting educational bushwalks for school kids in the community and visiting schools from the region, at community events and through donating and distributing the Great Western Woodlands field guide & pamphlets to schools, sponsors and community partners.
- All outcomes were achieved within this reporting period across all projects and activities. All measurable outcomes relating to projects and activities have been enhanced from previous years.

### AWARDS & CERTIFICATES

This year, KBULG received a certificate of appreciation for supporting and participating in the City Kalgoorlie-Boulder community events:

- Lighting of the Xmas tree
- Community Expo
- Autumn Flower Show
- Kids Fest
- Heart of Gold Festival

KBULG entered Kalgoorlie-Boulder into the 2014 Tidy Towns Sustainable Communities Awards and won the Regional Award for Natural Environment Conservation Goldfields & Central Wheatbelt!

KBULG was also nominated for two categories in the KBCCI Goldfields Business and Employee Awards in 2014 and we won BOTH categories; Employers Supporting Employees with a Disability and Not for Profit Organisation of the Year.

# Projects and Activities (continued)

## MEMBERSHIP

The possibility of joining KBULG as a member and being enlisted as a friend of KBULG was introduced in 2003. During the 2014/2015 time period the number of enlisted member approximated 600. KBULG provides members with updated information about its activities and upcoming events, in addition to encouraging members to get involved in landcare activities and to assist KBULG with the organisation and delivery of events.

KBULG is very grateful to those members who invest part of their valuable leisure time into assisting KBULG with its nursery work and stallholder activities at events. It is an extremely rewarding experience for KBULG to witness a growing interest in conservation activities among community members from all age groups and professional backgrounds.

## KBULG JUNIOR LANDCARE

A major focus of all aspects of KBULG's work and envisaged future projects is the education of younger generations, providing for a more sustainable future of the Kalgoorlie-Boulder region and all of Australia. The Junior Landcare Program (JLP) is thus one of KBULG's most significant priorities and KBULG continues to assess the success of ongoing education activities and opportunities for new projects involving the young.

A major aim of JLP is to involve teachers of all Kalgoorlie-Boulder schools in environmental education, and KBULG accordingly invites all school teachers of the region to benefit from KBULG's environmental expertise and welcomes any type of interest from schools in educational activities. KBULG attempts to accommodate any request from schools in relation to Junior Landcare education and is always more than happy to go out of its

way to respond to specific requirements. Frequently organised activities include educational bushwalks with the duration and educational content adapted to the class needs, tree planting events on school grounds, and classroom talks.

KBULG provides schools with regular updates, information and reminders about its activities, in addition to encouraging schools' involvement in KBULG's major community events such as the rECONstructed Art Competition, the Annual Clean-up Kalgoorlie-Boulder Day and the Annual Kalgoorlie-Boulder Tree-Planting Day.

KBULG continues to receive positive feedback from participating schools in relation to its commitment to Junior Landcare education. The program encourages the young generation to gain an appreciation of the unique biodiversity values of the region, and to actively consider the implications of urban and industrial developments. KBULG is grateful to Northern Star Resources who continue to provide funding and on-ground support to the program.

## Projects and Activities (continued)

### MEDIA

KBULG is regularly featured in the local media and over the 2014/2015 period the number of articles reporting about **KBULG's activities, events and various projects** was 47 (with some advertising material featured multiple times). KBULG aims to inform a diverse range of community members about its activities and ongoing projects, and therefore invests considerable effort into maintaining fruitful working relationships with a variety of media outlets, including and not limited to: the Kalgoorlie Miner, Radio West, ABC radio, GWN, WIN TV and articles in Rangelands NRM e-Newsletters.

KBULG actively informs the local media about its activities and promptly responds to requests for interviews or other information. This functional working relationships contribute to **KBULG's frequent presence on the local news, numerous feature articles, and regular interviews with KBULG staff.**

### NEWSLETTER

KBULG continued to produce its community newsletter in 2014/2015, informing **the community about KBULG's events and activities**, while at the same time highlighting opportunities for the

community to get actively involved in environmental conservation.

The newsletter also features an educative component presented in an entertaining and easily understandable way such as information about a particular plant species or innovative opportunities for an environmentally more sustainable household. The four-page, coloured centre-spread newsletter is featured in the Saturday edition of the Kalgoorlie Miner, and KBULG consistently receives exceptionally positive feedback from the community. Any interested individual can also request the latest issue of the newsletter from KBULG.

### WEBSITE

KBULG continues to work on its website, including the conceptualization of ways to optimize the user-friendliness of the website. The website is an important tool facilitating access to a wealth of information about **KBULG's activities the region's conservation needs to a wide audience.** A large proportion of membership request are received via the online membership form, available as a website link. The website can be viewed at [www.kbulg.org.au](http://www.kbulg.org.au).

Another important communication tool of **growing significance is KBULG's Facebook page** where information about events and **activities can be shared with KBULG's** steadily increasing number of Facebook followers and we will be growing this page in 2015/2016.

## Projects and Activities (continued)

### DISPLAYS, EXPOS AND FESTIVALS

KBULG actively contributed to a variety of community events throughout the 2014/2015 period. Displays and stalls were set up at events such as the Goldfields Spring Festival, Kids Fest, WA Day, and the Heart of Gold Festival. Public displays and stalls at a variety of event types allow KBULG to raise awareness on local environmental issues, and to provide educational materials and advice to a diverse **target audience**. **KBULG's presence at events** also enables the organisation to promote its many environmental projects and activities.

### CLEAN UP KALGOORLIE-BOULDER DAY

One of KBULG's key objectives is to convey the message 'Reduce, Re-use, Recycle' to the wider community, leading to an increased awareness of the waste cycle, and empowering the community to adequately assess the environmental impacts of waste. In addition to using every opportunity to educate the community about methods of waste prevention and waste recovery, KBULG hosts clean-up days throughout the year. The annual Clean Up Australia Day - a nationwide initiative pro-

moted through state-specific Keep Australia Beautiful Councils, is KBULG's most prominent clean-up day, and attracts significant community interest as a result of the nationwide promotion. Every year the event is held at a different location, selected based on litter quantity and visual amenity priority.

This year the Clean Up Australia Day was organised on Sunday, June 14th. Despite light rain coinciding with the early morning event start, almost 70 members of the community from diverse age groups joined forces and assisted with cleaning up the litter items of varied shapes and sizes affecting the bushland and native animals in Hannans North behind Hannans Boulevard. KBULG was pleased to hand out additional rubbish bags to community members who expressed their interest of collecting rubbish items at other locations within the city and surroundings.

The Salvation Army funded and organised a free BBQ brunch for the community volunteers on the day and Coles donated gift vouchers that were handed out as raffle prizes. These kind donations encouraged and supported the admirable conservation efforts of the many engaged volunteers. The Clean Up Australia Day events are a great way to foster community spirit and increase civic pride.

## Projects and Activities (continued)

### NATIVE PLANT GUIDE

The first edition of KBULG's Native Plant Guide was launched in late May 2003. KBULG produced a second edition of its Native Plant Guide for Karlkurla Bushland Park & the Goldfields. The new guide contains updated species information and images, while a wider range of plant species found in the Goldfields have been included in the new guide.

The new, updated Native Plant Guide links in with existing signage in Karlkurla Bushland Park and was launched at the Boulder Community Markets on Sunday, June 21<sup>st</sup>. **KBULG's native plant guide is a must-have for plant enthusiasts as it not only provides detailed information about species' characteristics, species' habitat, traditional anthropogenic uses, in addition to other interesting facts rarely mentioned in conventional guidebooks. It's also the perfect plant guide for plant-interested visitors and new residents to the region as high-quality images make plant identification easy and fun.**

The guide is available from the KBULG office, Kalgoorlie Visitors Centre, Western Australian Museum Kalgoorlie-Boulder, Loopline Museum Boulder and the Department of Parks and Wildlife Kalgoorlie.

### PROMOTING WATERWISE GARDENING WITH LOCAL NATIVE PLANTS

KBULG has gladly witnessed a continuously rising interest in gardening with local native plants from new and existing residents. Any related enquiries are addressed in a knowledgeable and professional manner and residents are supplied with lists of native trees and shrubs suitable for planting along with pamphlets and other reference material. KBULG actively maintains and distributes stock lists of nurseries providing and selling native Goldfields plants. In the 2014/2015 period KBULG has also been consulted for rehabilitation and tree planting advice from a diverse range of stakeholders, including the Norseman City Council, Main Roads, and Tropicana Gold Mine.

KBULG proudly supports the community with advice on water-wise gardening activities and promotes gardening with local native plants that have developed specialized adaptations to the harsh climatic and environmental conditions. KBULG provides community members with the opportunity to purchase native plants from its nursery at selected Boulder Market Days throughout the year and at community events such as the Goldfields Spring Festival. At these events community members are also provided with expert advice and information on how to create Waterwise gardens and can ask any related questions to KBULG staff and volunteers.

## Projects and Activities (continued)

### SUSTAINABLE GARDEN QUEST

KBULG's Sustainable Garden Quest has become an important spring event for everyone engaged or interested in waterwise gardening within the Kalgoorlie-Boulder Region. Winners were announced at the Goldfields' Spring Festival on Sunday, 12th of October 2014, and the competition again served its purpose in promoting, educating, and awareness-raising about opportunities and varied techniques for water-wise gardening. In 2014 KBULG introduced the new category *Schools* and amended the existing category structure, resulting in a separate category for *Community Organisation*. The *Edible Garden* category, introduced in 2013, featuring vegetables, fruit and bush tucker, was again a major highlight of the competition.

Winning entries were selected from following five categories: Residential (Owner & Tenant combined), Commercial (Business and Industry combined), Schools, Community Organisation, and Edible Garden. Gardens were assessed on innovative techniques to enhance sustainability and water-efficiency, along with the overall appearance of gardens and their tidiness.

Entries were plentiful and varied, and the judges were highly impressed by the presented efforts showcasing techniques to create visually attractive, well-maintained gardens that can be successfully managed under local semi-arid conditions. Judges were especially pleased to witness a pronounced tendency towards gardening with natives and low-water use plants.

**Bergie's Soils** again provided the major sponsorship for the events, donating 50% of the gift vouchers. Outback Energy and the Kalgoorlie Miner also sponsored the competition through free advertising, facilitating the overall great success of the competition.

**Kalgoorlie-Boulder Sustainable Garden Quest**

Enter before the 20 September 2014 and receive a voucher providing 25% off Goldfields Natives from Karlkurla Community Nursery and a copy of the Native Plant Guide — Karlkurla Bushland Park & the Goldfields. Also receive information about gardening with local native Plants.

**CATEGORIES**

- Residential  
(Owner & Tenant Combined)
- Commercial  
(Business & Industry Combined)
- Schools
- Community Organisation
- Edible Garden  
(Vegetables/Fruit/Bush Tucker)

This year's competition will focus on all aspects of creating and maintaining a sustainable garden, the overall appearance, colour and tidiness of gardens and verges.

For entry forms and judging criteria please email [admin@kbulg.org.au](mailto:admin@kbulg.org.au) or visit Lotteries House, Bergie's Soils or the Kalgoorlie Miner. Visit our website for details [www.kbulg.org.au](http://www.kbulg.org.au) or contact KBULG on 0418935498.

Follow us on Facebook [www.facebook.com/groups/kbulg/](http://www.facebook.com/groups/kbulg/) for updates during the competition.

Entries / nominations close 20 September 2014. Judging will take place 27-28<sup>th</sup> September. Winners will be announced at the Spring Festival Celebration on Sunday 12<sup>th</sup> of October 2014;

### ANNUAL TREE PLANTING DAY

KBULG's Annual Tree Planting Day has established itself as one of the region's major community events, attracting many conservation-conscious individuals and families.

Every year KBULG selects a barren area in Kalgoorlie-Boulder for re-vegetation and this year's tree-planting day, organized on Sunday, the 27th of July 2014, focused on Boomerang Crescent, South Kalgoorlie, entirely clear-felled 100 years ago.

## Projects and Activities (continued)

The community's interest in the event continues to grow and this year as many as 200 participants planted thousands of seedlings.

Due to the high participation rate the 3000-4000 seedlings of hardy species such as Wattles, Acacias, Atriplex and Eremophilas were planted in under two hours.

KBULG was highly impressed by the enthusiastic community spirit and felt privileged to be able to witness the unified work efforts by community and corporate groups, mining companies, families and individuals who all strived to do their bests to assist the 'Greening of the Goldfields' and an enhanced lifestyle for the community as an entity.

The City of Kalgoorlie-Boulder carried out important site preparation works such as installing the reticulation, mulching, ripping, along with offering on-ground support on the day.

In addition to the City of Kalgoorlie Boulder, KBULG is grateful to KCGM, Northern Star Resources, LandCorp and the Kalgoorlie Miner for providing significant sponsorships.

Participants were rewarded with a free sausage sizzle prepared by KCGM and were offered free hats contributed by ORICA Greenedge. KBULG would once again like to thank everyone for a magnificent day of greening Kalgoorlie-Boulder.

# Projects and Activities (continued)

## RECONSTRUCTED ART COMPETITION

Coinciding with the national recycling week, KBULG once again invited the community to participate in the Reconstructed Recycled Art Competition and Exhibition. The competition and corresponding exhibition places major emphasis on educating the community, in particular the younger generation, about the importance of recycling by spreading the key message of Re-use, Reduce and Recycle.

In line with its educational focus the competition this year especially encouraged the participation of schools and notified them about the event well in advance. The event, which was organised for the fifth time, was themed the "Great Western Woodland", although entries did not necessarily have to correspond to the theme. The exhibition was opened on Friday, November 21st 2014, and winning entries were announced during the opening ceremony.

KBULG and the judging committee made up of independent volunteer judges from art and waste management backgrounds were highly impressed by the quality of the submitted artwork that demonstrated exceptional artistic creativity and a thorough understanding of the waste cycle

Entries were judged in 7 categories based on artistic quality, creativity & aesthetic merit, craftsmanship & quality of work, and function & innovation. The plentiful visitors to the exhibition were delighted to be presented with items such as hanging plot pants made out of old bike helmets, furniture made out of cardboard tubes, and a 3-dimensional lizard painting made from soft drink tabs. for the duration of the exhibition.

Major sponsors included KCGM, the Goldfields Art Centre and the Kalgoorlie Miner while KBULG's core sponsors City of Kalgoorlie-Boulder, Northern Star and Land-Corp also supported the event.

by the community.

## Projects and Activities (continued)

### KARLKURLA COMMUNITY NURSERY

KBULG's community nursery is an important feature of Karlkurla Bushland Park and is open to the community to visit, obtain information about garden maintenance and plant propagation, in addition to learning about opportunities to create waterwise gardens with native plants. Nursery staff and volunteers have again worked hard over the last financial year and contributed to the successful propagation of more than 60,000 plants. KBULG is collaborating with Skill Hire to create work opportunities for members from the community who are looking to gain work experience and/or to re-enter the workforce. Work experience participants play an important part in assisting KBULG to successfully maintain its nursery.

Due to KBULG's ongoing presence at community events, the nursery has gained increasing popularity and visits by community members are becoming more frequent. Bulk purchases of plants from industry and government agencies in 2014/2015 reflect the growing recognition KBULG has earned itself through its community engagement and involvement on biodiversity education. Plants are also available now at McBrides Nursery, 7 days a week.

The Native Plant Group, established in late 2004, is organised by KBULG on the first Sunday of every month. All members of the community are welcome to participate in group meetings to learn more about Kalgoorlie-Boulder's unique flora. Plant propagation activities within the nursery by the group have significantly contributed to KBULG's ability to donate thousands of plant seedlings to community groups, communal spaces and community events, along with a growing number of schools that are eager to create native gardens.

### RECENT NURSERY UPGRADES

We would like to thank Goldfields Environment Management Group (GEMG), CKB, Skillhire, Onsite Rental Group, Hoselink and the Rotary Club of Kalgoorlie. They have all contributed either money and/or in-kind sponsorship to enable a multitude of upgrades to Karlkurla Community Nursery in the 2014/2015 financial year. We received a new area for our tools/equipment to be stored, new roofs for 3 hot houses, one hot house completely re-covered, new Hoselink hoses throughout the nursery, blue metal gravel spread across the nursery compound and the installation of underground pipe work for a new water-efficient automated watering system, which we hope will be operational soon (all at the touch of our iPhones).

## Projects and Activities (continued)

### KARLKURLA BUSHLAND PARK

KBULG closely collaborates with the City of Kalgoorlie Boulder in the management of the 200 hectares of natural regrowth bushland within Karlkurla Bushland Park. Park visitor use continues to increase, and KBULG therefore welcomes the addition of updated infrastructure facilitating visitor access, such as the new recycled-plastic bridge that replaced a worn wooden boardwalk across Gribble Creek in June 2015. The bridge provides safe and convenient access to the park to pram users and is also disabled-friendly.

To be able to monitor the increasing park use of residents and visitors counters have recently been installed at different park entrances. Various special interest groups such as Parkrun continue to use the park on a regular basis. KBULG encourages volunteer conservation research activities such as seasonal bird diversity and abundance counts and offers support by providing personnel on the day and free use of nursery facilities.

KBULG encourages learning about the **unique Goldfields' flora of the region**, with many species being found in the park, and correspondingly conducts guided bushland walks for any interested group on request. Walks are targeted to **the groups' special interests and needs**, ranging from local Junior Landcare students, visiting Camp School students, university students, political decision-makers to any interested individuals from the community. To facilitate learning about native flora KBULG updated and extend the interpretive and directional signage in the Park.

## Projects and Activities (continued)

### REGENERATION ZONE MANAGEMENT

Along with Karlkurla Bushland Park, KBULG manages a series of other fenced-off Regeneration Zones, creating a 'green belt' surrounding the City of Kalgoorlie-Boulder. The total area of native bushland encompassed within these regeneration zones approximates 3,500 hectares and mainly consist of remnant vegetation fragments, while notably providing habitat to a high diversity of *Eremophila* species, with a significant occurrence of localized endemics.

KBULG collaborates with the City of Kalgoorlie -Boulder in devising a sustainable future for these zones, prioritising areas

of conservation significance and allowing limited urban development within the limits of environmental carrying capacity.

KBULG conducts routine inspections of the regeneration zones that are under constant threat from illegal activities such as off-road driving, woodcutting and rubbish dumping. All of the regeneration zones have been mapped in detail and fencing records were analysed. Visual inspections have also been carried out and supplementary fence lines were installed where inspections indicated their necessity.

### A COMMUNITY GARDEN FOR KALGOORLIE-BOULDER

Preparations for a Community Garden, which has long been high on the community's wish list, have finally begun after an extensive public consultation period and acquirement of grant funding from the Goldfields-Esperance Development Commission's Community Chest Fund. A vacant acre adjacent to Hammond Park was selected as the location of choice and fencing has been completed. KBULG is a proud member of the committee for the community garden and is actively engaged in the planning process.

KBULG's expertise in regards to landscape design, residents' interests and needs, along with species planting logistics continue to be incorporated in the design of the community garden. Given the steadily increasing popularity of Karlkurla Bushland Park, the opening of the community garden is eagerly anticipated not only by the community, but also by KBULG staff and volunteers.

## Projects and Activities (continued)

### INFANT MEMORIAL TREE PLANTING

In June 2015 the Kalgoorlie-Boulder Cemetery and KBULG coordinated a tree-planting around the outer wall of the new Infant Memorial at the Kalgoorlie Cemetery. The planting of KBULG-donated seedlings was supported by the Goldfields Women's Health Care Centre, the Kalgoorlie-Boulder Cemetery Board and many community-minded residents. It was a wonderful, deeply moving and heart-warming winter day and KBULG would like to thank everyone involved.

### KARLKURLA DREAMING CULTURE TRAIL

KBULG commenced hosting 'Cultural Dreaming' Trails in Karlkurla Bushland Park in 2012. The walk trails are organized in collaboration with local indigenous guides and aim to foster appreciation and knowledge about indigenous practices and to enhance cultural awareness. The walk trails have gained growing popularity among the community and visitors, and participants come from all age groups and cultural backgrounds.

The walk trails give attendees the opportunity to learn about native flora and fauna, bush medicines and bush tucker, while being taught about significant historical events and listening to Dreamtime stories. The tours conclude at Katunga Lookout where participants are able to enjoy delicious camp oven damper with a variety of bush fruit jams and billy tea.

Due to the continued success of the walk trails, KBULG has aspirations to organise an increasing number of walk trails and to further expand its cultural education activities.

## Chairperson's Report 2014–2015

Thank you to our wonderful staff who have worked hard throughout the year, keeping Karlkurla Park looking great, and also for your enthusiastic work at the Arboretum which KBULG has picked up this year. The nursery is looking fabulous.

Throughout the year KBULG has been able to provide work experience to a number of groups such as volunteers from the prison, work for the dole programs and a number of other volunteers to help them get back into the workforce in some way.

A number of our regular projects have gone very well this year. The Community Tree planting day drew a big crowd and the planting was done in record time. Well done to Kim and the staff for organising the event and BIG congratulations to the Kalgoorlie-Boulder community for such a wonderful effort.

I would like to thank the staff at KBULG. Kim has continued to work tirelessly to make connections and networks with the council and the community. Congratulations for coordinating the submission for the State Tidy Towns Awards, it was a great result for Kalgoorlie-Boulder. Jan has done a wonderful job at the Nursery. Your expertise and hard work is much appreciated and you will be missed when you leave. We wish you well in your move back home. Welcome to Juliane. It has been a pleasure to have you with us and you have quickly become a valuable member

of the team.

My thanks also go to our committee. I know that we have all had a very busy year outside of KBULG, but you have all put in a great effort to our organisation.

Thank you to all our supporters and sponsors throughout the year, we could not get by without you.

**Don't forget our Native Plant Group** which is up and running again, also our Sustainable Garden Competition and Recycled Art Competition still to come this year. Have a wonderful festive season and we hope that you will all continue to support this wonderful organisation throughout the coming year.

*Peta Osborne*

## Conclusion

KBULG's vision is to work for a *better environment and better lifestyle* for the people of the Goldfields by encouraging *communication, education and participation*.

The group aims to involve the community in all its activities and is committed to working with other community groups, schools, business and government to achieve its goals.

The Kalgoorlie-Boulder Urban Landcare Group, previously the Goldfields Dust Abatement Committee, has conserved and established native vegetation in the Gold-

fields for over 40 years. Due to past, present and future impacts and threats to the Kalgoorlie-Boulder environment, planning and promoting our activities and the need for conservation and rehabilitation of the Goldfields environment is given high priority.

KBULG has achieved all aims, objectives and outcomes over this reporting period and are committed to continuing to serve **the Goldfields Community and its environment**. Once again a very big thank you to all of our sponsors, supporters, staff committee and members.

# Financial Report

## Kalgoorlie Boulder Urban Landcare Group Inc Independent Auditor's Report to the Members

---

We have audited the accompanying financial report, being a special purpose financial report, of Kalgoorlie Boulder Urban Landcare Group Inc (the association), which comprises the Statement by Members of the Committee, Income and Expenditure Statement, Statement of Financial Position, notes comprising a summary of significant accounting policies and other explanatory notes for the financial year ended 30 June 2015.

### Committee's Responsibility for the Financial Report

The committee of Kalgoorlie Boulder Urban Landcare Group Inc is responsible for the preparation and fair presentation of the financial report, and have determined that the basis of preparation described in Note 1 is appropriate to meet the requirements of the Associations Incorporation Act of Western Australia 1987 and is appropriate to meet the needs of the members. The committee's responsibilities also includes such internal control as the committee determine is necessary to enable the preparation and fair presentation of a financial report that is free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We have conducted our audit in accordance with Australian Auditing Standards. Those Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the association's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the association's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the committee, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion

In our opinion, the financial report presents fairly, in all material respects, the financial position of Kalgoorlie Boulder Urban Landcare Group Inc as at 30 June 2015 and its financial performance for the year then ended in accordance with the accounting policies described in Note 1 to the financial statements, and the requirements of the Associations Incorporation Act of Western Australia 1987.

### Basis of Accounting and Restriction on Distribution

Without modifying our opinion, we draw attention to Note 1 to the financial statements, which describes the basis of accounting. The financial report has been prepared to assist Kalgoorlie Boulder Urban Landcare Group Inc to meet the requirements of the Associations Incorporation Act of Western Australia 1987. As a result, the financial report may not be suitable for another purpose.
