Executive Summary

1. To remain the leading environmental group in the Goldfields.
2. To facilitate Kalgoorlie-Boulder becoming a more environmentally aware community.
3. To inspire the Kalgoorlie-Boulder community to be environmentally active.
4. To ensure the sustainability of KBULG.

The Kalgoorlie-Boulder Urban Landcare Group (KBULG) is a community-based Environment and Conservation Organisation.

The group has been working to improve the environment in and around Kalgoorlie-Boulder for over 40 years. KBULG is a registered Charitable Organisation.

VISION

KBULG's vision is to work for a "better environment and better lifestyle" for the people of Kalgoorlie-Boulder through "collaboration, education and participation". While Kim's personal motto is "Connecting People to Parks and Nature"

CEO Report

I am pleased to present the Annual Report for the Kalgoorlie-Boulder Urban Landcare Group (KBULG) for the financial year ending 30 June 2019.

The KBULG team is delighted to once again look back at an extremely successful and eventful year, with the organisation achieving all its ambitious goals, and much more! We are grateful to the community of Kalgoorlie-Boulder for wholeheartedly supporting and attending our many annual community awareness/education events during the past year. KBULG is deeply impressed by the enthusiastic commitment of the City's residents to contribute to a better lifestyle and healthier environment. It was a great compliment for our community to be recognized for our recent hard work as finalists in the 2019 WA Tidy Towns Sustainable Communities Awards in two categories - The WA State Title and Heritage and Culture.

Over the last year KBULG has continued to increase its visibility across the region by supporting other organisations and their events, by proposing new collaborative partnership projects, and by getting involved in other agencies' existing projects. Our group's ongoing success and accomplishments are largely attributed to wonderful working relationships with our partners, sponsors and friends. Long-term mutually beneficial relationships with our immensely valued sponsors are the key to the success of our community engagement projects. KBULG was honored to receive the 2018 KBCCI Best Not For Profit Community Organisation Award in the KBCCI 2018 Goldfields Business Awards and we could not do that without our much valued sponsors.

As always there is more work to do and we will continue to engage the community through our annual events, projects and activities, whilst using every opportunity to grow our involvement in the community. We look forward to our continued interaction with the residents of the Goldfields within our open community nursery, monthly Native Plant Group and through our events and competitions.

Thank you to each and everyone who has been part of our projects, activities and events over the last year - Thank you for your enthusiasm, motivation and dedication, which makes it possible for us to continually, year on year, accomplish our milestones and goals for creating a "better environment and better lifestyle" for the people of the Goldfields.

I would also like to sincerely thank our dedicated KBULG staff team (past and present), the committee, members, partners and sponsors (both financial and in-kind). I really appreciate your enthusiastic support and constant input and am looking forward to continue working with you this year to develop and implement many more rewarding community events and projects.

*Many Thanks
and Regards,*

Kim Eckert

Achievements 2018–2019

JUNIOR LANDCARE	Kalgoorlie-Boulder Primary schools were involved in the Junior Landcare Programme this year through KBULG conducting Bushwalks through Karlkurla Bushland Park and Tree Planting Projects with the schools. KBULG also presented talks at schools and participated in school expositions.
NEWSLETTER	KBULG continued to produce a community newsletter which is published as a full page centre spread in Saturday's Kalgoorlie Miner. With approximately 15,000 copies printed, we are reaching a wide audience.
RECONSTRUCTED ART COMPETITION	The rECONstructed Art Competition & Exhibition in November 2018 encouraged members of the community to source and utilise waste products and materials to create innovative pieces of art. Reduce—Reuse—Recycle, celebrated as part of National Recycling week.
CLEAN UP DAY	KBULG hosts the "Clean Up Kalgoorlie-Boulder Day" in conjunction with Clean up Australia Day. In March 2019 over 200 residents of the community cleaned up bushland between Gatacre Drive and Atbara Street, filling two skip bins of rubbish supplied by Cleanaway.
TIDY TOWNS & SUSTAINABLE CITIES AWARDS	KBULG entered Kalgoorlie-Boulder into the 2018-2019 Tidy Towns Sustainable Communities Awards and was a finalist for the "Overall State Award Title" category and for the "Heritage and Culture" category, primarily for the re-opening of the Goldfields War Museum.
SUSTAINABLE GARDEN QUEST	KBULG launched its annual Sustainable Garden Quest in conjunction with the major sponsors Kalgoorlie Miner and Water Corporation. The competition focused on all aspects of creating and maintaining a sustainable garden, the overall appearance, colour and tidiness of gardens and verges.
COMMUNITY TREE PLANTING DAY	KBULG coordinated the Annual Community Tree Planting day in conjunction with the City of Kalgoorlie-Boulder and core sponsors. The site for 2018 was along Gatacre Drive in Somerville, approximately 5000 seedlings, adapted to site conditions, were planted by as many as 150 volunteers in 2 hours.
NATIVE PLANT GROUP	Participants in the KBULG Native Plant Group in 2018/2019 propagated local natives from seed & cuttings. Plants grown by the group were distributed to local schools and community groups free of charge. The Native Plant group meets on the last Sunday of every month. Residents as far as Leonora have come to participate in this inclusive community event.
KARLKURLA BUSHLAND PARK	KBULG continually supports the Kalgoorlie-Boulder City Council with the park management, along with organising bush walks, tree plantings and school projects. Improvements to the park over the last few years include pedestrian counters and a new boardwalk bridge constructed from recycled plastic.
GIFSA	KBULG continues to support the Goldfields Individual Family Support Association (GIFSA) through encouraging people living with disabilities and their carers to further develop interests & training opportunities at the Karlkurla Community Nursery.
SCATTER THE SILKY PEAR	This program enables tourists to pick up a brochure and a packet of Karlkurla seeds (for a small donation) from the Kalgoorlie-Boulder Visitor Centre and scatter them at designated locations within Karlkurla Bushland Park. Funds from seeds sold contribute to projects within Karlkurla Bushland Park.
REGENERATION ZONES	A series of fenced Regeneration Zones encompass an area of approximately 3,500 hectares around Kalgoorlie-Boulder. The Regeneration Zones safeguard habitat fragments for endemic species with locally restricted habitats such as rare <i>Eremophila</i> species. KBULG carries out continuous awareness—raising through the media and the organisation's newsletter, educating the community to preserve the buffer zones' environment. KBULG also undertakes strategic audits of the regeneration zones, evaluating the adequacy of existing fencing and identifying issues arising from illegal rubbish dumping and weed infestations.
PUBLIC AWARENESS AND PROMOTION	KBULG frequently gets out and about within the community to promote the local environment and the importance of living sustainably. This is achieved by attending community events like the Spring Festival, Kids Fest, Lighting of the Xmas tree, schools and public/group forums, in addition to KBULG's own education and conservation events/projects.
RECYCLING	KBULG continues its ongoing support of the City of Kalgoorlie-Boulder with community awareness promotion and education in regard to waste cycle management, with a particular focus on recycling. KBULG constantly promotes for business and commercial recycling in the Kalgoorlie-Boulder area.
MEMBERSHIP	KBULG consistently promotes its services, projects & activities throughout the community and continues to welcome new members. In 2018-2019 we had over 560 members.

Sponsors and Partnerships

To achieve all of the organisation's goals and objectives KBULG is strongly reliant on the support of its core sponsors: The City of Kalgoorlie-Boulder, Northern Star Resources (Kanowna Belle), KCGM, Keep Australia Beautiful, Evolution Mining, the Department of Biodiversity, Conservation & Attractions (Kalgoorlie-Boulder) and Water Corporation.

These organisations collaborate with KBULG and work in partnership with us to achieve our vision of a "Better Environment and Better Lifestyle" for the people of the Goldfields.

Our sponsors meet the continuous funding needs required for the implementation of all of KBULG's projects including Junior Landcare activities, Tree-planting events, publication of KBULG's Community Newsletter, upkeep of Karlkurla Bushland Park, operation of Karlkurla Community Nursery, regular Native Plant Group Meetings, Regeneration Zone Management, numerous other projects and activities, in addition to KBULG's general administration duties.

Our core sponsors are vital for maintaining the profile, respect and credibility that we hold within the community.

KBULG maintains strong links and working relationships with all of our core sponsors, mining companies and businesses in the region, who provide in-kind support to our programs and initiatives.

All of KBULG's projects are built on partnerships that facilitate mutually beneficial outcomes.

KBULG acknowledges the integral role of sponsors to the group's successful operations whenever the opportunity arises.

Management of KBULG

The KBULG committee comprises a large and diverse group of individuals, and includes representatives from government, local industries and interested members of the community.

The Kalgoorlie-Boulder Urban Landcare Group coordinates and promotes many projects and is associated with many activities around the City of Kalgoorlie-Boulder. All of KBULG's engagements are coordinated from the KBULG office, which is located at Karlkurla Bushland Park.

KBULG employs a fulltime paid CEO. Kim Eckert has been employed within this position since January 2013. Kim is accountable for the day-to-day management and coordination of the organisation, under the direction from the KBULG committee.

Part-time and casual staff along with volunteers assist with the implementation of KBULG's various projects, including; the Junior Landcare Program, Clean up Australia Day, guided bushwalks, Community Tree Planting Days, manning the KBULG stall at displays and expositions, along with administration and community nursery operation tasks.

The KBULG CEO is responsible for developing and maintaining successful avenues of community liaison through reaching a high diversity of groups and organisations, consequently involving community members from all socio-economic backgrounds. The CEO ensures that projects are adequately devised, implemented, maintained and monitored. Major tasks overseen by the CEO include project development and funding, public education and coordination of community events. KBULG's staff also liaise with the Council, schools, government departments, sponsors and the media on local

landcare projects and issues.

The elected Committee supports and guides the KBULG CEO in relation to any arising issues, along with offering advice on project management decisions as required. The committee also provides input in regards to the group's strategic planning and overall direction.

Environmental & Community Achievements

- KBULG held its very first Recycled Art Competition and Exhibition named “rECONstructed” in November 2009. In 2018 and now in its 10th year, the competition and exhibition was viewed by thousands of people at the Western Australian Museum of the Goldfields. The competition was again extremely successful as the result of the plentiful uniquely creative input from professional artists, schools and community members.
- Approximately 150 volunteers planted around 5000 trees, shrubs and ground cover plants on a section of roadside along Gatacre Dr opposite the airport at KBULG’s Annual Community Tree Planting Day in 2018.
- In 2018/2019 over 60,000 plants were propagated in KBULG’s nursery, providing us with necessary plant numbers for tree planting events around town, and allowing thousands of plants to be donated to local community groups, schools and the community.
- Many gardening enthusiasts entered their gardens into our 2018 Sustainable Garden Quest Competition. Judges were extremely impressed by the gardens’ creative layouts, displaying innovative aspects of waterwise gardening.

- All primary and secondary schools in Kalgoorlie-Boulder and hundreds of students participated in KBULG’s Junior Landcare Program in 2018/2019. Frequently organised activities included tailor-made educational bushwalks, tree planting events on school grounds and classroom talks adapted to the individual needs and interests of classes.
- Updating promotional and community educational material continues to be a key focus. KBULG has increased its social media presence, and is constantly working on updating existing educational materials and interpretive signage across Karlkurla Bushland Park.
- KBULG continues to promote the conservation significance of the Great Western Woodlands through conducting educational bushwalks for school students in the community and visiting schools from the region, at community events and through donating and distributing the Great Western Woodlands field guide & pamphlets to schools, sponsors and community partners.
- All outcomes were achieved within this reporting period across all projects and activities. All measurable outcomes relating to projects and activities have been enhanced from previous years.

Environmental & Community Achievements (continued)

AWARDS & CERTIFICATES

During this financial year KBULG received a certificate of appreciation for supporting and participating in the City of Kalgoorlie-Boulder community events:

- ◆ Lighting of the Xmas tree
- ◆ Community Expo
- ◆ Kids Fest

KBULG entered the 2018 **KBCCI Business Awards** and won the category:

"Not For Profit Community Organisation Award".

Urban landcare Group's Kim Eckert with John Mason and Loiwe Nyirongo.

Juliane Sander, Peta Osborne and Kim Eckert.

In collaboration with the City of Kalgoorlie Boulder KBULG again entered Kalgoorlie-Boulder into the 2019 state-level **Tidy Towns Sustainable Communities Competition** and was a finalist for the categories:

- ◆ Overall State Award Title
- ◆ Heritage and Culture

Judges were particularly impressed with the restoration of the Goldfields War Museum, after it was damaged by the 2010 earthquake it was in need of a new home. It was reopened as part of The Boulder Town Hall combining two very historically significant exhibits.

Projects and Activities

MEMBERSHIP

In 2003 KBULG introduced the possibility of becoming a member of KBULG and being enlisted as a friend of KBULG. During the 2018/2019 time period the number of registered members approximated 580. KBULG regularly updates its members with information about its activities and upcoming events, while also encouraging members to get involved in landcare activities and to assist KBULG with the organisation and delivery of events.

KBULG is very grateful to those members who contribute their valuable leisure time to various aspects of KBULG's work, including nursery work/Karlkurla Bushland Park maintenance and stallholder activities at events. It is an extremely rewarding and gratifying privilege for the KBULG team to witness a growing interest in conservation activities among community members from all age groups and cultural & professional backgrounds.

KBULG JUNIOR LANDCARE

A major focus of all aspects of KBULG's work and envisaged future projects is the education of younger generations, providing for a more sustainable future of the Kalgoorlie-Boulder region and all of Australia. The Junior Landcare Program (JLP) is thus one of KBULG's most significant priorities and KBULG continues to assess the success of ongoing education activities and opportunities for new projects involving the young.

Over the last year all Kalgoorlie-Boulder schools have been involved in environmental activities, with KBULG inviting all school teachers of the region to benefit from the organisation's environmental expertise and welcoming any type of interest from schools in educational programs. KBULG accommodated any request from schools in relation to Junior Landcare education and over the last year continued to go out of its way to respond to specific requirements. Frequently organised activities included educa-

tional bushwalks with the duration and educational content adapted to the class needs, tree planting events on school grounds and classroom talks & activities (with a strong emphasis on promoting sustainable resource use and conservation of biodiversity). KBULG provided schools with regular updates, information and reminders about its activities, in addition to encouraging schools' involvement in KBULG's major community events such as the rECON-structed Art Competition, the Annual Clean-up Kalgoorlie-Boulder Day and the Annual Kalgoorlie-Boulder Tree-Planting Day.

Over the last year KBULG received exceptionally

positive feedback from participating schools in regards to the group's ongoing commitment to Junior Landcare education. KBULG has also recently gained some success with the inclusion of high school students in the program, most recently a year 11 geography class utilized the park to conduct a mapping exercise of the parks flora and a year 10 food group took the opportunity to tour the park to learn all about bush tucker.

The program encourages the young generation to gain an appreciation of the unique biodiversity values of the region, and to actively consider the implications of urban and industrial developments. KBULG is grateful to Northern Star Resources who continue to provide funding and on-ground support to the program.

Projects and Activities (continued)

MEDIA

KBULG is regularly featured in the local media and over the 2018/2019 period 59 articles reporting about KBULG's activities, events and various projects (not including some advertising material featured multiple times) were published. KBULG aims to reach a diverse range of community members with information about its activities and ongoing projects, and therefore invests considerable efforts into maintaining fruitful working relationships with a variety of media outlets, including but not limited to: the Kalgoorlie Miner, Radio West, ABC Radio, GWN.

KBULG proactively informs the local media about its activities and responds to requests for interviews or other information in a timely manner. Our successful working relationships with media outlets encourage KBULG's frequent local news presence, numerous feature articles, and regular interviews with KBULG staff.

NEWSLETTER

KBULG's community newsletter features educative components about opportunities for a more environmentally sustainable household, with a particular emphasis on correct recycling techniques, ideas to get started on composting, and ways to reduce your footprint on the planet. The four-page, coloured centre-spread newsletter is fea-

ured in the Saturday edition of the Kalgoorlie Miner. With the newsletter content presented in an entertaining and easily understandable way, KBULG consistently receives exceptionally positive feedback from the community. Any interested individual can also request the latest issue of the newsletter from KBULG and additionally they can download it off the KBULG website.

SOCIAL MEDIA & WEBSITE

With the growing use of social media, community engagement in our projects and activities has become increasingly straightforward and effective. KBULG's Facebook page is very active and publishes daily posts. The page is currently followed by approximately 620 people, with numbers steadily increasing. In addition to sharing KBULG's events and activities with a growing number of Facebook followers KBULG provides news and recommendations on sustainable living and green households through multiple daily posts. We also utilise facebook to promote our Partners and Sponsors.

KBULG's website facilitates public access to a wealth of information about KBULG's projects & activities, upcoming events, and the region's conservation needs. A large proportion of membership requests are received via the online membership form, available as a website link. The website can be viewed at www.kbulg.org.au.

Projects and Activities (continued)

DISPLAYS, EXPOS AND FESTIVALS

As the Goldfields most active environmental community organisation KBULG again contributed to many events throughout the 2018/2019 period. KBULG participated with displays and stalls at events such as RFDS Open Day, Kids Fest, WA Day, Goldfields Community Expo and the KCGM Open Day. Public displays and stalls enable KBULG to raise awareness on local environmental issues, and to share educational materials and advice with its diverse target audience. KBULG's presence at events also allows the organisation to promote its many environmental projects and activities, and to raise environmental awareness within a fun setting.

CLEAN UP KALGOORLIE-BOULDER DAY

One of KBULG's key objectives is to spread the message to 'Reduce, Re-use, Recycle'. This entails educating the wider community about aspects of the waste cycle such as relevant waste decomposition time spans, whilst also sharing innovative waste reduction and recycling ideas with residents. In addition to ongoing education projects that educate the community about

methods of waste prevention and waste recovery, KBULG hosts an annual Kalgoorlie-Boulder Clean Up Australia Day – a nationwide initiative promoted through state-specific Keep Australia Beautiful Councils.

The Clean-Up Day event is held at a different location every year, selected based on litter quantity, conservation significance and visual amenity priority.

This year's event was held on Sunday, 10 March 2019, and focused on cleaning up the area between Gatacre Dr and Atbara St, an area of cultural significance to one of our local Aboriginal Elders. The participants, over 200 residents of Kalgoorlie-Boulder and the Goldfields region, filled up two skip bins, supplied by Cleanaway, with litter items of varied shapes and sizes affecting the bushland and native animals at the site.

The many hard-working volunteers were rewarded with a sausage sizzle and various raffle prizes, making this event again a fun morning and achieving a great outcome for both visual amenity and conservation. Thank you to all our sponsors and the people of Kalgoorlie-Boulder for all your hard work and a morning full of smiles!

Projects and Activities (continued)

RESTORING AREAS OF CULTURAL SIGNIFICANCE

KBULG often works with the indigenous community to implement projects or events that aim to restore areas that have significance to the indigenous community of Kalgoorlie-Boulder. Two events this year in particular were aimed at just that, the Clean Up Kalgoorlie-Boulder Day and the Clean Up Nanny Goat Hill Day.

Clean Up Kalgoorlie-Boulder Day

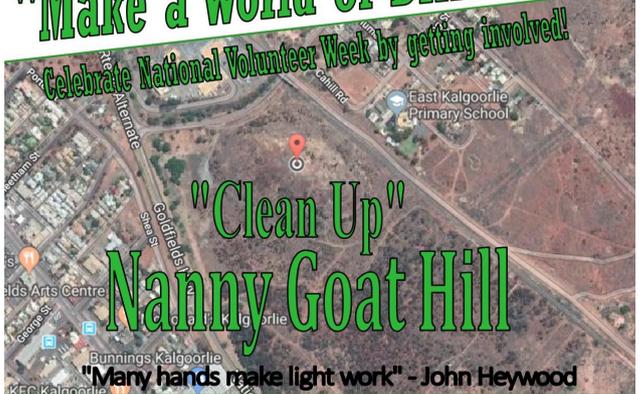

Clean up day (March 10) was organised at the block of bushland between Gatacre St and Atbara St due to the importance of the site to one of the Local Indigenous Elders, Brian Champion, this area was of historical importance to his family and as such deserved more attention and care. Over 200 residents turned up to collect over 2 skip bins worth of rubbish that was impacting the sites flora, fauna and visual amenity. A big thank you to the CKB and Clean Away for all their assistance on the day and in the lead up.

Clean up Nanny Goat Hill Day

The clean up of Nanny Goat Hill was similarly organised due to its significance. KBULG in conjunction with KCGM and the Water Corporation organised and clean up and re-seeding of Nanny Goat Hill on the 22nd May, to coincide with National Volunteers Week.

Once the clean up of any rubbish had been completed volunteers took shovels, pre-

prepared local native seed in soil and watering cans to direct seed into the hillside and are surrounding Nanny Goat Hill. The natives seeds included Jam wattle, Tan wattle, Kurrajong and the Karlkurla (silky pear).

Projects and Activities (continued)

SUSTAINABLE GARDEN QUEST

KBULG's Sustainable Garden Quest has established itself as an important spring event for everyone engaged or interested in sustainable, waterwise gardening within the Kalgoorlie-Boulder Region. In 2018 the competition again met its core objective - promoting, educating, and raising awareness about opportunities and varied techniques for waterwise gardening. The competition consisted of five separate categories and the different category winners were announced at Kalgoorlie-Boulder's Spring Festival. Due to high publicity of the event and enthusiastic uptake of the community the event has demonstrated to be very effective in promoting innovative ideas for waterwise gardening and sustainable landscaping.

The event calls for everyone engaged or interested in waterwise gardening and sustainable landscaping practices within the Kalgoorlie-Boulder Region to share their passion and individual approaches with like-minded residents, with the KBULG Team ready to provide encouragement and useful advice as well as giving out prizes. Winning entries of last year's competition were selected from following five categories: Residential (Owner & Tenant combined), Commercial (Business and Industry combined), Schools, Community Organisation, and Edible Garden.

The Water Corporation is the major sponsor of the event as it aligns with the Corporation's vision to promote sustainable water use to a wide audience. KBULG is thankful to Bergie's Soils who again donated 50% of the gift vouchers and the Kalgoorlie Miner who sponsored the advertising of the competition as in previous years.

The poster features a light green and blue background with illustrations of a tree, a frog, and flowers. At the top right is the 'BERGIE'S' logo. The main title is 'Kalgoorlie-Boulder Sustainable Garden Quest 2018'. Below the title, it says 'ENTER NOW for your chance to win a Gift Voucher from Bergie's Soils'. A list of categories is provided: Residential (Owner & Tenant Combined), Community Organisation, Edible Garden (Vegetables/Fruit/Bush Tucker), Commercial (Business and Industry Combined), and Schools. A circular logo for 'KALGOORLIE-BOULDER URBAN LANDSCAPE GROUP' is on the right. At the bottom, it lists sponsors: WATER CORPORATION, Evolution MINING, NORTHERN STAR, KCGM, and City of KALGOORLIE-BOULDER. It also includes dates for entries closing (4 September 2018) and judging (8th September 2018).

ANNUAL TREE PLANTING DAY

KBULG's Annual Tree Planting Day, the region's major conservation-focused event, enjoys steadily growing popularity among residents and attracts many environmentally-conscious individuals and families. KBULG selects a barren area in Kalgoorlie-Boulder for re-vegetation each year and this year's tree-planting day, organised on Sunday, 29 July 2018, focused on revegetating a section of barren area between the Airport and Gatacre Dr. This was done in the hopes of creating a barrier between the airport at the residential section of Sommerville and to minimise the dust created by the cleared area.

As many as 150 hard-working volunteers assisted KBULG to plant 5000 seedlings. Because of the wonderful community support, in particular from local industry professionals and fami-

Projects and Activities (continued)

lies, the seedlings, donated from KBULG's community nursery and selected to be well suited to the harsh environment of the site, were planted in just under 2 hours.

Witnessing the wholehearted unified work effort and enthusiastic community spirit demonstrated by community and corporate groups, mining companies, families and individuals, was a truly heart-warming experience for the KBULG Team. Each and every participant was deeply committed to do their bests to contribute to the 'Greening of the Goldfields' and an enhanced lifestyle for the entire community. To reward participants for their hard work and motivation KBULG organised a free sausage sizzle for everyone.

KBULG again received crucial support from the City of Kalgoorlie-Boulder who carried out important site preparation works and provided on-ground support on the day. KBULG's core sponsors KCGM, Northern Star Resources, Evolution Mining provided essential resources for the events, and the Kalgoorlie Miner sponsored the advertising. KBULG would like to once again thank everyone for a highly successful and fun day of greening Kalgoorlie-Boulder.

THANK YOU

Projects and Activities (continued)

RECONSTRUCTED ART COMPETITION

KBULG's rECONstructed Art Competition and Exhibition has become a major annual community event, and inspires individuals, community groups and schools to get creative while helping to raise awareness about the waste cycle and the importance of recycling by spreading the key message of Reduce, Reuse, and Recycle.

Coinciding with National Recycling Week, in 2019 KBULG once again encouraged the community to submit artwork for this exciting and thought-provoking exhibition.

Held in November 2018 the rECONstructed Art Competition again met its objective to reach a wide audience, in particular the younger generation, to communicate the significance and complexity of the waste cycle in our everyday lives.

The competition comprised of 7 separate categories with cash prizes for each, and judges had the difficult task to choose from some superbly creative pieces of artwork from Kalgoorlie-Boulder and surrounding regions. The thoughtfully designed artworks from recycled and no longer used materials were exhibited at the Western Australian Museum of the Goldfields in the British Arms Hotel in an educational, and highly visible 2-week Arts exhibition that proved popular with a wide audience consisting of locals and visitors to the popular landmark.

Competition category winners were announced at the exhibition opening night on Friday, 16th November 2018. The event, now in its Tenth year of being organized, was themed "Anything Goes" and received 43 entries a record number. KBULG and the independent volunteer judges from art and waste management backgrounds were delighted by the variation in entries. KBULG is proud to have attracted the continuous interest of local schools and community groups in this unique event .

The winners of 2018's competition

Community Group: Goldfields Rehabilitation Services - "Cartoon Characters"

Primary School: Hannan's Primary School - "Wild and Free"

Junior Individual: Josh Campbell - "Recycled Metal Plane"

2D Sculpture: Lilian Walters - "No Splinters Here"

3D Sculpture: Val Adriano - "Nonno's Rocking Horse"

3D Sculpture: Eugene Winters - "Golden Seahorse in a Bottle"

Peoples Choice Award:

KBULG is grateful to the event sponsors KCGM, the Museum of the Goldfields, the Kalgoorlie Miner, Evolution Mining and the Water Corporation, in addition to its core sponsors the City of Kalgoorlie-Boulder and Northern Star who also supported the event.

Turn trash into piece of treasure

■ Zoe Keenan

Old car parts, broken furniture and household junk would usually earn a trip straight to landfill.

But next week these used articles will be labelled works of art, hung on the wall of the Museum of the Goldfields, to highlight the ongoing battle with human waste.

Kalgoorlie-Boulder Urban Landcare Group's annual rECONstructed Art Competition exhibition will open next Friday.

KBULG chief executive Kim Eckert said the purpose of the event was to highlight the importance of reducing, reusing or recycling waste.

"We've become such a throwaway society but it's important we are more mindful of reusing our articles and finding other purposes for them, rather than throwing them away," she said.

"We want people to reduce their waste by reusing it for other purposes and if not, as a last resort recycle it."

The annual art competition

gives artists the chance to be creative using recycled materials to turn trash into treasure.

The winners are determined on how creative their work is, how much thought was put into it, and how much waste was used.

The exhibition runs from

Friday, November 16 at 5.30pm until November 24, to coincide with National Recycling Week.

"It's a great opportunity to keep raising awareness of bad habits and get people to rethink their waste and do their bit for the environment," Ms Eckert said.

Projects and Activities (continued)

NEW EVENTS SHOWCASE KBULG'S ACTIVITIES & COMMUNITY NURSERY

Over the last year KBULG has organised new family-friendly events to raise the community's awareness about the Community Nursery and KBULG's many projects & activities. KBULG has commenced to organise regular open days in its community nursery to encourage residents who are not fully familiar with KBULG's role in the community and the services we provide to get to know us during a fun morning full of activities in the nursery. Open Days are held in conjunction with KBULG's monthly organised Native Plant Group where individuals can learn everything about propagation techniques and water-wise gardening. Free activities for children are also offered by KBULG.

The Open Days have been a huge success with the number of participating community members exceeding all our expectations. Open days present an excellent opportunity for displaying our wide array of waterwise plants for sale to the public and the high number of plant purchases on the day by residents have made open days even more rewarding for our organisation. KBULG will hold more open days during the next financial year and has also been implementing new events such as 'Kids Free Holiday Fun Mornings' during School Holiday Periods.

NEW UPGRADES TO THE FACILITIES AND IMPROVED ACCESS TO THE NURSERY FOR ALL

KBULG is constantly working to make improvements to our Community Nursery this year that has included making the nursery more accessible to the general public including those who have mobility issues. Concreting was completed on the front half of the nursery to connect the kitchen, office, Eco & Cultural Education Centre and toilet block making all buildings accessible to anyone who is wanting to make use of our facilities.

We are also working hard to build on what infrastructure we already have to make the Community Nursery a multi-use area including the addition of a kitchenette in the Eco & Cultural Education Centre complete with dining ware, cutlery and glassware.

This wouldn't have been possible without the generosity of Lottery West who provided the grant money to make all these improvements possible.

We will continue to make improvements to ensure that our Community Nursery is an area that can be utilised by residents and other organisations for the betterment of the community and to bring a greater understanding of the environment to anyone who wishes to learn.

Projects and Activities (continued)

SHOWCASING LONG-TERM RELATIONSHIPS WITH SPONSORS

KBULG receives strong support from its many industry partners, with KCGM being one of KBULG's core long-term sponsors.

This year it was KBULG's pleasure to attend the KCGM open day, celebrating 30 years of operation, at the Hannans North Tourist Mine to showcase our long standing partnership with KCGM.

SHOWCASING NEW RELATIONSHIPS WITH SPONSORS

This year KBULG was contacted by The Kalgoorlie Smelter Crew from Nickel West Australia to ask if there was anything that they could do to help us and the community. It came at a perfect time as we had a couple of projects that we needed help with to complete.

John Maske and his crew came out on the 16th and 17th of May to build a patio that had been purchased with funds from Northern Star. John Maske and his crew of 12 assembled the patio over two days helping us to create a dual work space

that is undercover for those rainy days and where we can establish new soil bays. About a month later on the 17th of June Daniel Trott and his team came out to

complete another project for us, the roofing of the potting area furthering the amount of undercover area that we have available.

We were very grateful that the Nickel West Kalgoorlie Smelter reached out to us and for their help to further the ability of the Nursery to operate whatever weather conditions.

PROMOTING INDIGENOUS KNOWLEDGE & CULTURAL UNDERSTANDING

KBULG regularly conducts Culture Tours within Karlkurla Bushland Park, employing Aboriginal guides. A KBULG guide together with Aboriginal guides takes guests on a walk through the park, explaining

our local flora and fauna, bush tucker and bush medicine. Guests then enjoy billy tea/coffee and homemade damper with quandong jam a local specialty. This unique experience of a KBULG guide working alongside Aboriginal guides to share their combined knowledge to the community and visitors is truly amazing and rewarding. It also brings the community together in the hope to bridge the social issues we have been facing.

KBULG's employment of local guides enables local Indigenous residents to share their knowledge on bush tucker & bush medicine and to convey their stories to the community. The enthusiastic interest of cultural trail participants invokes feelings of cultural pride and fosters cultural understanding within the community. KBULG also continues to expand its engagement with aboriginal youth who regularly visit the nursery to partake in education and training courses.

Projects and Activities (continued)

TOGETHER FOR A SUSTAINABLE KALGOORLIE-BOULDER

Over the last few years KBULG has been working hard to put the not-for-profit organisation's limited financial resources to their best possible use in order to reach the community through a wide range of projects. KBULG has achieved this by proposing new collaborative partnership projects and responding to other agencies' requests to be involved in existing projects.

finalists for the overall State Title as well as the Heritage and Culture Title, after a joint application with the Council was submitted by KBULG. Whatever the outcome of the awards it is important to note that this is a magnificent achievement. Kalgoorlie-Boulder once again impressed the judges through the successful implementation of various environmental sustainability and cultural initiatives including the

restoration of the Kalgoorlie-Boulder War Museum in the Boulder Town Hall after it was damaged.

Annually KBULG organises many events that encourage community participation in more sustainable practises including the highly successful Clean-Up Kalgoorlie-Boulder Day, Tree Planting Day and The Sustainable Garden Quest as well as running competitions that bring to light the amount of waste produced in households that can be reused like the rECONstructed Art Competition and the Recycled Art competition at the Community Fair.

Another highlight of 2019 was the showing of an episode of ABC's Gardening Australia which aired in July and featured KBULG, Kim Eckert and our indigenous cultural tour guide Edie Ulrich and the Kalgoorlie-Boulder area. It was very exciting to receive national exposure through such a popular and respected TV program.

We also celebrate nationally recognised events by supporting other groups and by organising events to celebrate these causes. This year we celebrated Volunteer Week with the Clean-up Nanny Goat Hill Day organised by KBULG and supported by KCGM and The Water Corporation.

A highlight for KBULG in 2019 was that the organisation's very successful partnership with the City of Kalgoorlie-Boulder was recognised in the 2019 WA Tidy Towns Awards. The City of Kalgoorlie-Boulder was nominated as

REQUEST FOR GARDENING KNOW-HOW TURNS INTO TELEVISION FEATURE

KBULG was delighted to welcome Josh Byrne (Josh's House) to its Community Nursery on Saturday, 24 March 2018. Dr Byrne is best known for his role as the WA presenter of ABC TV's Gardening Australia program where he conveys practical advice on creating productive and water-efficient gardens to a national audience. Having published two best-selling books on sustainable and innovative household gardening practices while being appointed in research positions by both Curtin University and the University of Western Australia, KBULG was incredibly honored to hosts and Josh' visit and to receive a wealth of innovative advice and tips on waterwise gardening and sustainable horticulture techniques tailored to the rugged Kalgoorlie-Boulder environment.

Josh's visit to the nursery inspired him and his team to film a segment with us and in June 2018 KBULG had the privilege to welcome Josh again in its community nursery to shoot an upcoming segment on Gardening Australia. The Segment on KBULG and Kalgoorlie was aired on the 26th of July 2019, KBULG organized a special viewing of the show to be shown at The Palace Theatre in Boulder on the big screen. The night was a rousing success showcasing Karlkurla Bushland Park and the rugged Goldfields environment.

KBULG is extremely grateful to the Kalgoorlie-Boulder Community Fair for inviting Josh in March 2018 and for allocating time for him to visit our wonderful Community Nursery. Being featured on Gardening Australia will bring invaluable and well deserved publicity for KBULG and the unique Goldfields environment.

Chairperson's Report 2018–2019

Another year has flown by, and KBULG has continued to provide a wonderful service to the communities of Kalgoorlie-Boulder and surrounding areas.

I would like to thank Kim, staff and all the volunteers for the wonderful work which has been done this year as well as the hours contributed in service to our amazing community, the nursery looks great, the nursery and park facilities continue to get better and better and the park is blooming. Karlkurla Bushland Park itself continues to be a popular place for both tourists and locals alike, with approximately 25000 people visiting the park in 2018 and so far over 35000 people in 2019, the park gates might need new hinges sooner than we think.

Sadly in April 2019 there was a case of vandalism to our Katunga Lookout, which was damaged by fire, we are happy to announce that thanks to the wonderful people at BGC Concrete and Zelnor Developments the lookout is once again open to the general public and those wishing to make the most of this wonderful spot in Karlkurla Bushland Park can do so once more.

KBULG has continued to run their regular popular community events as well as attending many other community events. Some of these have included:

- ◆ Sustainable Garden Quest
- ◆ Community Tree Planting Day
- ◆ Kalgoorlie-Boulder Clean Up Day
- ◆ Kids Fest
- ◆ Lighting of the Christmas Tree
- ◆ Spring Festival
- ◆ Reconstructed Art Competition

◆ Native Plant Group

As well as a variety of education programs in schools and with groups, both local and from further afield, doing tours at Karlkurla Park.

KBULG has continued their work with a number of groups in the community providing opportunities for their members to participate in real and valuable activities while learning new skills.

The Eco-Education Centre and the kitchen are now complete, as well as other infrastructure building coming along well, projects which would not have been possible without support from our valuable sponsors, supporters and funding bodies which support KBULG.

I would like to sincerely thank all of our sponsors and supporters for your belief in KBULG and the valuable contribution it provides to the community. Your support means we can continue to strive towards improving our community nursery for the benefit of the community and continue to get out and interact with the people of Kalgoorlie-Boulder with our annual events and competitions.

Warmest regards,

Peta Osborne
Chairperson
KBULG

Conclusion

KBULG's vision is to work for a *better environment and better lifestyle* for the people of the Goldfields by encouraging *communication, education, participation and collaboration*.

The group aims to involve the community in all its activities, events and is committed to working with other community groups, schools, business and government to achieve its goals.

The Kalgoorlie-Boulder Urban Landcare Group, previously the Goldfields Dust Abatement Committee, has conserved and established native vegetation in the

Goldfields for over 40 years. Due to past, present and future impacts and threats to the Kalgoorlie-Boulder environment, planning and promoting our activities and the need for conservation and rehabilitation of the Goldfields environment is given high priority.

KBULG has achieved all aims, objectives and outcomes over this reporting period and is committed to continuing to serve the Goldfields Community and its environment. Once again a very big thank you to all of our sponsors, partners, supporters, staff, committee and members.

Financial Report

Kalgoorlie Boulder Urban Landcare Group Inc Independent Auditor's Report to the Members

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Kalgoorlie Boulder Urban Landcare Group Inc (the association), which comprises the Statement by Members of the Committee, Income and Expenditure Statement, Statement of Financial Position as at 30 June 2019, a summary of significant accounting policies and the certification by members of the committee on the annual statements giving a true and fair view of the financial position and performance of the association.

In our opinion, the accompanying financial report presents fairly, in all material respects, the financial position of the association as at 30 June 2019 and [of] its financial performance for the year then ended in accordance with the accounting policies described in Note 1 to the financial statements and the requirements of the Associations Incorporation Act 2015.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the association in accordance with the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared to assist the association to meet the requirements of Associations Incorporation Act 2015. As a result, the financial report may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Responsibilities of the Committee for the Financial Report

The committee is responsible for the preparation and fair presentation of the financial report in accordance with the financial reporting requirements of the Associations Incorporation Act 2015 and for such internal control as the committee determines is necessary to enable the preparation and fair presentation of a financial report that is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the committee is responsible for assessing the association's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the committee either intends to liquidate the association or to cease operations, or has no realistic alternative but to do so.

Kalgoorlie Boulder Urban Landcare Group Inc
Independent Auditor's Report to the Members

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit.

We communicate with the committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
